Vineet Shah

Franklin Township, NJ | (732) 325-8560 | vineet2175@gmail.com

EDUCATION

Rutgers University **New Brunswick, NJ**

Bachelor of Science in Computer Science, Finance *May 2027*

- **GPA:** 3.80/4.00 | **Honors:** Dean's List (All Semesters)
- **Relevant Coursework:** Data Structures, Algorithms, Machine Learning, Artificial Intelligence, Databases, Linear Algebra

PROFESSIONAL EXPERIENCE

Barclays Investment Bank **New York, NY**

Quantitative Trading Summer Analyst *Jun. 2026 - Aug. 2026*

- Improved latency by ~15% for a U.S. rates algorithmic trading system by optimizing order execution logic in Java (IntelliJ)
- Queried and analyzed tick-level timing data stored in kdb+ using q, powering a real-time trade latency monitoring dashboard
- Collaborated with traders and engineers on the development of market data ingestion, signal generation, and order execution

Verisk Analytics **Jersey City, NJ**

Software Engineering Intern *Jun. 2025 - Aug. 2025*

- Engineered a transformer-based pipeline extracting 15,000+ regulatory filings into structured JSON via AWS Batch and S3
- Built Python ETL workflows with Pandas and Apache Airflow to standardize multi-format filings for automated ingestion
- Automated the end-to-end regulatory data workflow, integrating legacy databases and cutting latency from 8 hrs to 24 min

ChimpVine **Newark, NJ**

Mobile Engineering Intern *Dec. 2023 - May 2024*

- Resolved 255+ critical bugs across iOS and Android through systematic root cause analysis, increasing app stability by 40%
- Built and shipped 3 major mobile app features using React Native, Swift, and Kotlin, achieving cross-platform compatibility
- Optimized performance with Xcode Instruments and Android Profiler, cutting load times by 60% and memory usage by 35%

PROJECTS

Quantitative Stock Prediction & Backtesting Platform

- Engineered a Django backend to ingest, process, and store large-scale time-series financial data from the Alpha Vantage API
- Integrated a pre-trained machine learning model to forecast stock prices, generate backtest reports, and deliver live analytics
- Deployed the application on AWS with Docker and automated CI/CD pipelines, ensuring scalability and production stability

Insider Trading Data Pipeline Tracker

- Built a real-time Python and SEC-API data pipeline processing 5,000+ daily insider transactions across S&P 500 companies
- Engineered BeautifulSoup web scrapers to parse SEC Form 4 filings, analyzing trade patterns by ticker, type, and net value
- Developed a Streamlit dashboard with interactive Plotly visualizations, CSV export, and alerts on trades over $1M in value

LEADERSHIP & ACTIVITIES

Quantitative Finance Club **New Brunswick, NJ**

Vice President *Jan. 2024 - Present*

- Placed 2nd in the Salhotra Quantitative Challenge, developing an algorithmic trading strategy in QuantConnect and Python
- Researched and backtested statistical arbitrage and momentum strategies in Python, improving risk-adjusted returns by 25%
- Led club workshops on portfolio optimization, risk management, and backtesting frameworks for aspiring quant developers

Rutgers Undergraduate Student Alliance of Computer Scientists **Piscataway, NJ**

Software Developer Tech Lead *Nov. 2024 - Present*

- Built a platform serving 2,500+ students on the MERN stack with JWT authentication and RESTful APIs (99.9% uptime)
- Led a team of 5 developers to revamp the site's UI/UX design, implementing user feedback and modern design principles
- Developed a mentorship matching algorithm pairing 150+ upperclassmen and underclassmen by interests and career goals

HackRU (Major League Hacking Member Event) **Piscataway, NJ**

Vice President *Jun. 2024 - Jan. 2025*

- Led the planning and execution of a 24-hour hackathon, managing logistics, operations, and budgeting for 625+ participants
- Directed 30+ organizers across 4 teams, securing and managing $15,000+ in sponsorships from tech companies and startups

SKILLS & INTERESTS

Languages: Python, Java, C++, JavaScript, TypeScript, SQL, q (kdb+), Swift, Kotlin, MATLAB, HTML/CSS

Frameworks/Tools: kdb+, IntelliJ, React (Next.js), Node.js, Django, Pandas, Streamlit, Git, AWS, Docker, Linux, MongoDB

Interests: Poker & Game Theory, Chess, Basketball (Knicks), Weightlifting, Personal Investing, Traveling, Fantasy Football
